Seeding Rate

4 PLS lbs per 1000 sq. ft.  
 174 PLS lbs per acre

E/C Dry is specifically formulated as an erosion control and habitat builder in drier areas. The dominant characteristic of the varieties selected for this mixture is drought tolerance with low maintenance needs. Slender Wheatgrass is both drought and cold tolerant, and will perform satisfactorily in poor soils. Establishes easily and provides excellent cover for upland birds and wildlife.
