Seeding Rate 0.69 PLS Pounds Per 1000 Square Feet
 30.00 PLS Pounds Per Acre

Sweet Spot mixes feature High Sugar Grasses. These unique perennial ryegrasses can produce bigger racks and as much as 20% more body mass. Sweet Spot is a perennial wildlife mix that establishes quickly, winters well and creates fool-proof food plots year after year. This mix is excellent for northern climates and has good salt tolerance. Sweet spot can be grown for a hay crop and will provide excellent yeilds on irrigated pastures and dryland applications.
