Upland Food Plot is designed to provide a varied mixture of annuals that provide superior food for the upland game birds. This mixture needs to be replanted every year to provide the optimum food value for game birds. Upland Food gives you a long bloom season with a wide variety of color, bloom and foliage. This mix is high in annuals that are very quick to establish. It is designed to provide natural habitat food mixture for upland game birds. Providing nesting material and cover from predators. Upland Food will enhance the habitat for all game birds and provide the home they need to improve mortality and encourage nesting.
