Seeding Rate

3.00 PLS lbs. per 1000 sq. ft.
 130.60 PLS lbs. per acre

Roadside is a quick-establishing native erosion control mix. This mix is highly salt tolerant with the potential to dramatically lower overall maintenance costs. Successful vegetation along roadsides accomplishes several goals, from maintaining visibility and safety for travelers to minimizing erosion and maintenance costs. Research demonstrates that native plants are particularly well-suited to these tasks.
