*Varieties may change at time of blending.

Seeding Rate 8.00 PLS Pounds Per 1000 Square Feet
 350.00 PLS Pounds Per Acre

Diamond Green's composition is the latest in optimum turf grass performance. This low-maintenance mixture is for use where high-visibility, high-quality turf is desired with lower maintenance requirements. Diamond Green has lower fertilizer needs and drought tolerance and performs well in low-fertility soils. It provides excellent cover in both full sun and shaded areas, and is both cold and heat tolerant.

Recommended application rate is 8-10 lbs per 1,000 sq ft.
