*Varieties may change at time of blending.

Seeding Rate 6.90 PLS Pounds Per 1000 Square Feet
 300.00 PLS Pounds Per Acre

Shadow is a turf mixture designed to withstand heavier shade conditions. This mix is used in parks and home lawn where a shade canopy provides for limited filtered sunlight. A deep-rooting, drought-tolerant mix that performs well with less fertilizer than most mixes.

Recommended seeding rate is 6-8 lbs per 1,000 sq ft.
