*Varieties may change at time of blending.

Seeding Rate 8.42 PLS Pounds Per 1000 Square Feet
 366.07 PLS Pounds Per Acre

SUN is a full sun mix that can tolerate some filtered shade throughout the day. Typical fertilizer requirements will be lower than 100% perennial ryegrass blends. Lower water requirements are also typical with this 80% perennial ryegrass, 20% fine fescue mixture. Sun is a very dark green mixture that is popular in home lawns, commercial lawns, parks, and golf courses.

Recommended seeding rate is 8-10 lbs per 1,000 sq ft.
